

Audi Hungaria whistleblower system

Complying with statutory regulations and internal rules, and the principles laid down in our Code of Conduct and the Code of Conduct for Business Partners, has top priority at Audi Hungaria. The success of our company is based on Integrity and Compliance. To meet this standard, it is important to learn of potential employee or supplier misconduct and to put a stop to it. Therefore, we operate an independent, impartial and confidential Whistleblower System. The qualified and experienced colleagues examine every report thoroughly and follow it up systematically. By submitting the report, the whistleblower acknowledges and accept that, if there is a suspicion of a serious violation of the rules, the report may be processed by the Audi Investigation Office of AUDI AG or by the Central Investigation Office of Volkswagen AG and that all data associated with the report, in particular personal data, can be forwarded to these organizational units.

Protection for all concerned

A key pillar of our Whistleblower System is the principle of procedural fairness. It also guarantees the greatest possible protection for whistleblowers, persons implicated and employees contributing to the investigation of reported misconduct. This also includes offering opportunities for anonymous reporting and communication. We assure not to perform any steps in order to identify anonymous whistleblowers, who do not misuse our Whistleblower System. Retaliation of whistleblowers and all persons who contribute to investigations at AUDI Hungaria will not be tolerated. Persons implicated are presumed innocent until the violation is proven. Investigations will be conducted with the utmost confidentiality. The information will be processed in a fair, fast and protected process.

How do we process your report?

The qualified and experienced colleagues at the Compliance Department of Audi Hungaria examine every report for potential misconduct by an Audi Hungaria employee thoroughly and follow it up systematically. First, you will get a confirmation of receipt and then the report will be processed. This includes gathering facts particularly from the whistleblower. Only if this initial evaluation shows grounds for suspicion of a violation an investigation by a dedicated Investigating Unit will be started. Afterwards, the results of the investigation will be assessed and appropriate measures will be recommended. Information about the status and the outcome of the procedure will be given to you without undue delay.

If, at the end of the investigations, the Compliance Department of Audi Hungaria comes to the conclusion that a crime is suspected, a report will be made to the legally competent authority.

Potential violations of the Code of Conduct for Business Partners by direct and indirect suppliers, including serious risks and violations of human rights and environment can also be reported to the Audi Investigation Office - even as a report requiring otherwise immediate action. The Compliance Department of Audi Hungaria will inform the responsible departments, who will process the issue accordingly. This particularly includes taking the necessary measures to minimize or end violations and/or risks.

Make a report – but right!

The Whistleblower System offers various channels to report potential employee misconduct that allow a swift review and reaction by our company if necessary.

Upon receipt of the hint, cases are processed in compliance with all necessary procedural principles (for example confidentiality, protection of the whistleblower). It is important that the report is formulated as precisely and concretely as possible. It is helpful if you consider the five W-questions when making a report:

Who? - Who is it? Who is affected?

What? - What happened? Description of the facts.

When? – When was the incident?

What kind of? - How often did it happen?

Where? – Where did the incident take place?

Whistleblowers should ensure that their descriptions can also be understood by non-specialists. For this purpose, it is helpful if you are available for further questions. If you are willing to do so but you would like to maintain anonymity, you can use the anonymous reporting channels.

Do you have any concern or feedback regarding a product or service?

If you have any questions or inquiries regarding your new or used vehicle, feedback or complaints about services provided by Audi or our business partners (e.g. car dealerships, workshops), please contact the [customer care service](#). We kindly ask for your understanding that the Whistleblower System unfortunately cannot process customer complaints.

Potential regulatory violations can be reported via the following channels:

The Whistleblower System offers various channels to report potential employee misconduct that allow a swift review and reaction by our company if necessary.

However this does not affect the statutory right to contact designated authorities as described below.
